Subject: FW: Water Sampling / 2nd Qtr 2008

Jim,

The 2nd Qtr 2008 water monitoring data for Skyline is in the Pipeline and ready to be uploaded into the Database. To our knowledge, the only missing data / errors is listed below.

The Tritium data will be input once the data is received from the lab.

Site CS-21 needs the Sample Identification added (782-0800406-002). Hopefully you can add the ID so we don't have to add the entire sample by hand again.
